

Feintool Fineblanking Technology Division

Fineblanking and forming:
The economical production technology
for ready-to-install precision parts

As a provider of the complete range of fineblanking/forming technology Feintool not only supplies presses, tools and peripheral systems but is also a competent service partner.

Feintool's expertise is in demand all over the world wherever multifunctional parts made from metal need to be mass-produced at low cost in a controlled production process or prefitted in an assembly ready for installation.
